

RESULTS-BASED MANAGEMENT MONITORING & EVALUATION

Design, Monitor, and Evaluate
Projects That Deliver Real Impact

This course is specifically designed for NGO/INGO staff, government officials, experts, working professionals, and students, empowering them with the skills to design, monitor, and evaluate programs for maximum impact. They'll master essential techniques such as analyzing project contexts, effectively engaging stakeholders, setting precise objectives, and crafting M&E plans. The training covers diverse qualitative and quantitative methods, incorporates modern digital tools for enhanced data handling, and provides invaluable hands-on experience through exercises.

What will you learn?

This course will equip you to:

- Select **appropriate evaluation designs** for program monitoring and assessment.
- **Design effective research tools**, identify data sources, and choose methods for assessing program impact.
- **Develop a comprehensive strategy** for program monitoring and impact assessment.
- **Critically analyze the opportunities and limitations** of using digital technology in M&E
